Paragon Typewriter Ribbons are the best

X E realized years ago, when we first started to make Paragon Ribbons, that they had to be the best-at whatever cost.

There was a special reason -the Remington Typewriter.

We make the Remington and we make the ribbon. We started to make the ribbon for the Remington. No writing machine can do better work than its ribbon, therefore none but the best ribbon is good enough for the Remington

Typewriter. So you see that Paragon Ribbons kad to be the bestnot only for their own sake but for the machine's sake. This double incentive has produced the best ribbon-the ribbon

Of course there are other reasons for Paragon Ribbon leadership. We are the typewriter ribbon manufacturers with the best facilities, and the most complete knowledge of the qualities in a ribbon that typewriter users want and how to produce what they want. But all of these reasons have followed from the first. It was Remington leadership which demanded and produced Paragon leadership.

But do not think that the Paragon Ribbon is simply a Remington affair. What the Paragon Ribbon has done for the Remington, it has done, incidentally, for every other writing machine. Paragon Ribbons, of absolutely uniform quality, are made for all makes of typewriters.
